

Haverstock Funeral Home is proud to be a **Pink Ambassador**

What is a Pink Ambassador?

A member of our Haverstock Funeral Home team has been personally touched by breast cancer in the past as well as recently. This has impacted each of us at the Funeral Home. We feel a professional and personal responsibility to help educate our community further on breast cancer, to provide assistance to our community in this area, and to be a part of the search for a cure.

As a **Pink Ambassador**, Haverstock's goal is to continue to help raise awareness and educate on breast health and early detection.

The National Breast Cancer Foundation estimates that annually, over 200,000 women will be diagnosed with breast cancer. 1,700 men will also be diagnosed with breast cancer annually. Per the Foundation, when breast cancer is found early, the five-year survival rate is 96%. To learn more nationally, access: www.breastcancerawarenessmonth.com

Will you become a Pink Ribbon Partner with the staff at Haverstock Funeral Home? Pink ribbons are the universal logo for breast cancer awareness, education and survivorship. Stop by today for a free pink bracelet or lapel pin. If you want to donate any amount, nothing is too small, we will make sure all money is sent to Susan G. Komen For The Cure Foundation.

In 1982, the Susan G. Komen Foundation was launched to facilitate a global breast cancer movement. Today, Komen for the Cure is the world's largest grassroots network of breast cancer survivors and activists fighting to save lives, ensure quality care for all, and energize research to find cures. The Foundation has invested nearly \$1 billion to fulfill their promise, to become the largest source of nonprofit funds dedicated to fighting breast cancer throughout the world. To learn more, please use the link: <http://cms.komen.org/komen>

*We thank you deeply for allowing us to help promote breast cancer awareness **one pink ribbon** at a time.*

Please see Joan Adrian on our staff for more details.

Sincerely, Norm & Ginny Juday
